## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The information disclosure statement filed 3/30/04 fails to comply with 37 CFR 1.98(a)(3) because it does not include a concise explanation of the relevance, as it is presently understood by the individual designated in 37 CFR 1.56(c) most knowledgeable about the content of the information, of each patent listed that is not in the English language. It has been placed in the application file, but the information referred to therein has not been considered. It is noted that the IDS filed on 3/30/04 is a duplicate of that filed on 12/8/03 and therefore even those references considered in the 12/8/03 IDS have been crossed out to avoid repetition. It is also noted that the IDS filed on 3/30/04 is missing a signature.

### ***Double Patenting***

2. It is noted that the 10/004,112 application that was used to reject the claims of the present application under provisional obvious-type double patenting in the office action dated 12/8/03 issued as US 6,679,013 on 1/20/04. However, a terminal disclaimer is unnecessary in the present application because the amendment to the present claims eliminates the need for an obviousness-type double patenting rejection.

## **EXAMINER'S AMENDMENT**

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Art Unit: 1733

Authorization for this examiner's amendment was given in a telephone interview with Mr. Lipsitz on 6/23/04.

4. The application has been amended as follows:

Claim 1, line 5: --from said first side-- was inserted after "opening".

Claim 1, line 7: --from said first side-- was inserted after "opening".

5. The following is an examiner's statement of **reasons for allowance**:

With respect to claim 1, the prior art fails to teach or suggest a method for fabricating an integrated multipane window sash comprising providing a **sash frame** having a glazing pane installation **opening accessible from a first side** thereof and a glazing pane **support surface** on a **second side** thereof, **first**, inserting a first glazing pane into the opening **from the first side** and placing the pane adjacent to the support surface, and **second**, inserting a second glazing pane into the opening **from the first side** and mounting the second pane to the first pane via an adhesive.

The closest art of record was found in US 3573149 to Tibble. Please refer to Applicant's arguments filed on 3/30/04 (p. 10, 3<sup>rd</sup> paragraph which talks about Figure 3) for a discussion as to how present claim 1 and Tibble differ.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
